

# CORONAVIRIS AND WHAT YOU NEED TO KNOW

OUR OFFICE IS OPEN TO APPOINTMENTS ONLY

\*\*\*Please **do not** come to the office without calling first\*\*\*

The most important thing to do is stay home, However, we do realize that many of our patients have medical issues that need to be addressed. We are now using **Telemedicine** (Remote Care) to provide ongoing chronic care needs along with new problems that may arise and keep you safe at home.

We are contacting patients who have appointments to change their appointments to a Telemedicine visit. Please continue to call our office for your medical needs. We may need to defer some kinds of appointments.

## THINGS TO KNOW:

- Preparing for a Telemedicine Remote visit
- Coronavirus disease 2019 (COVID 19) and you
- Steps to help Prevent the Spread of Covid-19 if you are sick
- What should I do if...
